# AmeriFleet License, Title & Registration Services

Secure, timely registration and compliance

## Program Overview

Issues of licensing, title, and registration often seem like nothing more than inconveniences. But, fleet managers know keeping current and compliant is critical – without it, your vehicles could be pulled from the road, resulting in significant revenue loss. Managing these processes can be difficult, time consuming, and frustrating, which is why AmeriFleet offers a comprehensive initial license, registration and renewal program. Through this service AmeriFleet ensures that every vehicle in your fleet, no matter the location, maintains a current registration, appropriate tags, permits, and documentation. AmeriFleet will work directly with the DMV on your behalf, providing a single solution for all your registration needs. Services include but are not limited to:

- Monitoring and verification of expiration dates
- Title and registration procurement
- Timely renewal of registrations
- Duplicate title and registration requests
- Secure, electronic system for funds transfer for DMV fees, title filing, master log of DMV transactions by location, tracking status of vehicles and their compliance
- Review of vehicle mileage annually so that those operating with apportioned registrations are properly reported in each state.

Fleet managers can customize these compliance solutions to fit their fleets. AmeriFleet also offers unique invoicing methods to meet your needs, whether it's per transaction or a flat monthly administration fee based on transaction types and annual volumes. Flat rates in particular allow fleet managers to better manage their budgets, a difficulty many have when facing fluctuations in processing titles, licenses, initial registrations and renewals. Ultimately, fleet managers save money by leaving the paperwork to professionals who work every day with the ins and outs of the DMV process.

## Compliance Services

Truck fleets spanning multiple states have additional compliance needs beyond the DMV. AmeriFleet has services for these needs, too, offering a complete suite of solutions for International Registration Plan (IRP) and International Fuel Tax Agreement (IFTA) requirements. IRP solutions include new account set up, annual renewals, pre- and post-requisites, and state permits. IFTA solutions include account set up, report processing, filing, and archiving, state requirement compliance and technical consulting.

### Key Features

- Single solution for all compliance services
- 800+ employees dedicated to processing compliance documents
- Single point of contact
- Secure, online services
- Customized reporting and billing
- Local and multi-state compliance services

### Client Benefits
